

## THE "PEANUT GANG"

### OUR FOURTH WEEK

16 DECEMBER 2018

### Someone Say Food ??

It was Friday afternoon and well, it was just a normal day for us doing puppy stuff. The giants put us outside and then brought us in to play out near the office with Mom and our toys. What we didn't know was that the giants were in our nursery - our nursery! - changing stuff around. They dropped the front of the whelping box and then put some stuff on the floor (we learned later it was called paper). That was not the worse of it! There was a round sort of thing with some kind of gruel in it - at least that is what Mom called it. The giants said it will be good for us. It had crushed up *NOW* puppy feed (28% protein) and lactate free yogurt along with 3% lactate free milk. It sounded terrible sending shivers down our backs. What did these giants want us to do with it? I mean you can't really play with it. Right near this thing was what Mom called a water feeder, hm, another torture item.

One of the giants took each of us and showed us what they call water. Oh, and then they put some of the gruel in our mouth. They put us down beside the gruel. Actually, we were surprised - it was good. I mean really yummy. Well we couldn't help ourselves we all pushed in and started to chow down. We loved it so much we were walking in it and had gruel all over us. Soon we found ourselves so full we could hardly move. One of the giants then picked us up and gave us some goop. They said it was something called Strongid-T, worm prevention. What in the heck are worms?? Sounds gross.

Right after they put us down Mom came in and cleaned the mess up, we left behind. Then she came over and liked us, so we were like new again. Oh, we were full - so we did what came naturally and went to sleep, dreaming of our next meal...

So, until next week we hope you enjoy your visit with us...

- The Peanut Gang -

Lucy, Linus, Charlie, Snoopy & Sally

*Our First Meal*

The New Digs

*Playing Outside on the Snow*

*Mr Boots Visits*

- THE BOYS -

SNOOPY, CHARLIE & LINUS
