## Hearing and Eating

We overheard this conversation the other day: "You know George it seems just like yesterday we were born. Gads the time sure does fly by so quickly," said Charlie. George responded, "It is cause we are getting older." This is the wisdom of a puppy.

Our training continues with loads of stuff to do. Feeding of the three continues every three hours. It seems we just get to sleep and boom we are woke up to feed. Then Mom comes by and boom we get more food. Now we have the humans stuffing mush food into us. For our first feeding grandma put our lips into a water dish and then to the food bowl. We delve in not knowing what the stuff is - only knowing it tastes pretty good. At first, we don't eat much cause we are not use to it. Now we get Mom's milk, mush (three times a day) and some of us get supplement milk. Added to all this three of us also get a nutrient gel to aid in metabolizing our food. You should see the mess after we eat. Then Mom comes in and cleans us up and of course the mess too. Did we tell we tell you we love our Mom?

We finally got to meet Bella and Lucy. They are really cool. The two of them are already telling us some Cardigan secrets and how to deal with the humans. This is important stuff. We need to know how to get on the human's good side for extra things, like treats.

Going upstairs in the evening is really nice. Now that we can hear we often talk to each other about what is going on and what we need to do.

So, until next week we look forward to your visit with us...
